## EMMANUEL D A G H E R

*Heal Prosper Thrive*

*"Emmanuel echoes my belief that prosperity is an expansion of happiness."*

*~ Deepak Chopra*

*"Emmanuel catapults you towards a more prosperous, joyful life."*

*~ Jack Canfield, New York Times bestselling author, The Success Principles*

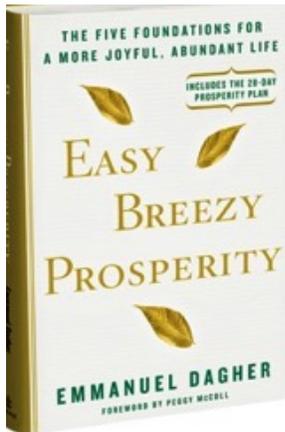

Over the past decade, Emmanuel Dagher has become widely recognized as a spiritual teacher, healer, and bestselling author who truly embodies what it means to live from the heart.

Emmanuel has quickly gained recognition on the world stage for his unique healing gifts, wisdom, and humanitarian efforts on behalf of refugee women and children.

This journey has lead him to a number of prestigious opportunities, including being a speaker and facilitator for a 2016 global healing event at the United Nations.

He has presented at the United Nations, the World Congress on Illumination, and at international consulates all over the world, as well as other national and international summits that promote peace and healing.

These have included major conferences such as *Celebrate Your Life* and *The Conscious Life Expo*, among many other mind/body/spirit events.

Emmanuel is also a two-time #1 bestselling author, for his books *Easy Breezy Miracle* and his most recent international success, *Easy Breezy Prosperity*. The latter has been translated into many different languages, for countries including Spain, Japan, France, Germany, and the Middle East.

Emmanuel has spent the last 15 years helping people to heal on all levels, and to expand into their greatest potential. He has accomplished this through a successful holistic healing practice, and through his workshops, books, and humanitarian efforts.

An accomplished singer/producer/musician, Emmanuel also creates music infused with healing frequencies, available on his website.

One of Emmanuel's greatest achievements to date has been developing **The Core Work®**. The Core Work© is a healing technology that has empowered thousands of people to release debilitating emotional, physical, mental and financial blockages preventing them from living their happiest and most fulfilled life.

The success of Emmanuel's endeavors has enabled him to work with people from all walks of life including refugees, celebrities, heads of state, communities and organizations, and every day people from around the world.

Emmanuel has also worked with some of the top names in the spiritual growth field, such as Marianne Williamson, Gregg Braden, Neale Donald Walsch, Carolyn Myss, Anita Moorjani, Michael Beckwith, Jean Houston, John Holland, Sonia Choquette and many other thought leaders of our time.

Emmanuel's soul-based desire and mission—to elevate the consciousness of the planet—was ignited early on. Having experienced the challenges of growing up in the war-torn country of Lebanon during the Lebanese civil war, Emmanuel is gifted with an extraordinary compassion and healing ability, which shine through all aspects of his work.

To be in Emmanuel's presence is to be in the presence of pure unconditional love.

Having survived many unfathomable challenges during his early turbulent years in the Middle East, and having been a refugee of war himself, have made Emmanuel's current body of work and contributions to humanity that much more meaningful.

With a background in psychology, an abundance of certifications in holistic and alternative healing therapies, and his intuitive healing abilities and life experiences, Emmanuel has dedicated his life to being of service in ways that inspire, heal, and uplift those who are ready and willing to expand into their greatest, most joyful potential.
